# PREFACE

**S**ince 1914, the NAACP Legislative Report Card has served as a presentation of key civil rights votes taken in the United States Senate and the United States House of Representatives. The edition that follows contains votes taken during the 110<sup>th</sup> Congress, which began January 4, 2007 and ended on January 3, 2009. This Report Card is designed to provide NAACP members with insight into the general voting patterns of their congressional representatives and state delegations over the course of the 110<sup>th</sup> Congress.

The votes selected for inclusion in the NAACP Report Card are those that have been considered by the full U.S. House of Representatives and U.S. Senate. Legislation that did not progress beyond the committee level is not included. The Report Card is updated and distributed to NAACP members twice each Congress. A Congress is two years long; the NAACP Legislative Report Card is issued at the end of the first year or session as a mid-term assessment, and then at the end of the second year and may be used as a final guide or assessment of the full two-year Congress.

We hope that you will find the enclosed information to be useful in your efforts to educate yourself and other NAACP members about the votes of our elected representatives on legislation of critical importance to the African American community and other friends of civil rights.
